Make an ordinary bathroom extraordinary with Jeffrey Court's Irish Ice Chapter 17. The rich "deep-translucent" glazes pool on many tiles to recreate the look of cracked ice. Of Celtic origin, the 6" x 6" embossed tiles look fantastic on kitchen backsplashes, tub surrounds, and hearth facades. These tiles are designed for interior wall use with the exception of the frosted glass that can be used on exterior walls, pools, pillars and fountains.
