Onyx Mosaics

Onyx is a stone that has been used as a building material for thousands of years dating back to the Greeks and Romans. Mother nature provides this stone in a variety of colors and veining. One of the most beautiful attributes of this stone is its translucence which provides visual depth when installed. Jeffrey Court has selected a blend of gold, brown, and red onyx to provide a wide palette to design with.

Rustic Natural Stone

The rustic tones of slate and quartz impart a warm feel to any installation. Naturally slip resistant and durable, the field tiles are an excellent choice for bathroom floors or entry-ways. Jeffrey Court has selected very attractive and unique slate and quartz mosaics that combine different stone color blends and glass to create a designer look.
