

CALACATTA DINERGY

Engineered Quartz - ●●●●●●

Calacatta Dinergy is the only Quartz that has captured the translucent beauty of a creamy marble base and combined it with the purity of the veins present within the coveted Calacatta Marble. No other Quartz comes close to its realistic beauty. Aurea Stone is the first to discover and manufacture their material using PHI Technology. PHI Technology joins the standard manufacturing process in the Engineered stone industry, obtaining an exclusive natural stone looking product that has been pursued for years. This process creates a stronger, more stain resistant, more scratch-resistant and better performing Quartz.
