

HAMPTON

Engineered Quartz - ●●●●●●●●

Hampton Quartz is versatile and rich with a convergence of greys, creams, whites and taupes and hints of black. 4E is made of 92-96% of natural Quartz and it keeps the consistency and stability of natural rock. Because it is less porous than marble or granite, it is very stain resistant and does not require sealing. It is a durable and scratch resistant material that cleans easily with simply soap and water. 4E is manufactured to be hygienic and is a fully certified product including NSF*, GREENGUARD and CE making it ideal for healthcare, education, hospitality and food service.
