

# LINCOLN

Engineered Quartz - ●●●●●○

Lincoln faithfully represents the clean white background and distinct grey veining of marble sourced from a single quarry near Aspen, Colorado since 1873 - a truly timeless American original. No other Quartz material comes close to its realistic beauty. Aurea Stone is the first to discover and manufacture their material using PHI Technology. PHI Technology is a one-step, ambient temperature, ambient pressure process that joins the standard manufacturing process and mixing composition in the Engineered stone industry, obtaining an exclusive natural stone looking product that has been pursued for years. This process allows for a stronger, more stain-resistant, more scratch-resistant and all around better performing Quartz. STOCKED ITEM
