

METRO SLATE BRUSHED

Engineered Quartz - ●●●●●●●●

Metro Slate Quartz is a unique combination of black flecks, a deep dark grey base and brushings of light grey made to match natural slate. Santa Margherita Quartz is made of 92-96% of natural Quartz and it keeps the consistency and stability of natural rock. While less porous and more stain resistant than marble or granite, it must be sealed just like natural stone. It is also a durable and scratch resistant material that cleans easily with just soap & water. Santa Margherita is a fully certified product including NSF* and GREENGUARD making it ideal for healthcare, education, hospitality & food service.
