

Contains: Silicon Dioxide, Quartz
Total crystalline silica (SiO₂) in product: 80-100%

Supplemental Labeling:

This product contains high concentrations of crystalline silica, that can be present in respirable form during processing tasks such as cutting, sawing, grinding, breaking, crushing, drilling, sanding, polishing, or sculpting. Inadequate processing of the material or unprotected and uncontrolled exposure to airborne respirable crystalline silica can cause serious illnesses, such as lung cancer, silicosis, immune system effects, and kidney effects. Engineered stone (quartz) slabs are not hazardous as shipped and as used by the end customer.

Avoid dry mechanical processing. Use wet methods where possible. Fabricators must process slabs in locations with adequate ventilation, including general dilution ventilation for the room and local exhaust ventilation proximal to work activities to control exposures to levels below applicable exposure limits. If feasible, process in a demarcated and isolated area. If feasible, process using remotely controlled equipment to separate worker from cutting and fabrication tasks. Use appropriately selected and fitted respiratory protection with dust filters (preferably a positively pressurized Powered Air Purifying Respirator (PAPR) with a HEPA-rated filter). Follow company procedures regarding exposure monitoring and medical reporting. Employees should be comprehensively trained on silica safety, including the proper use of PPE, emergency procedures and the importance of following safe work practices.

Refer to the Safety Data Sheets and to the Recommended Practices available at

www.dwyermarble.com/silica-safety

WARNING: This product can expose you to chemicals, including silica, which is known to the State of California to cause cancer. For more information, visit www.P65Warnings.ca.gov

DANGER

H350 - May cause cancer (if inhaled), H372 - Causes damage to organs (lungs) through prolonged or repeated exposure (if inhaled)

P201 - Obtain special instructions before use, P202 - Do not handle until all safety precautions have been read and understood, P260 - Do not breathe dust, P264 - Wash hands thoroughly after handling, P270 - Do not eat, drink or smoke when using this product, P280 - Wear protective gloves, eye protection, P284 - Wear respiratory protection, P308+P313 - If exposed or concerned: Get medical advice/attention, P314 - Get medical advice or attention if you feel unwell, P405 - Store locked up.
